## Regular Snow Routes

When winter weather makes roads dangerous for driving, KAT buses will run on Snow Routes; Snow Routes are slightly altered routes that keep our passengers moving and safe.

***The chart on the next page is a list of each KAT route and how that route is affected when we are running on Regular Snow Routes.***

If the weather is bad, just tune into your local radio station or TV channel to find out if KAT is currently operating on Snow Routes. You can also call us at 637-3000. The most up-to-date information can be found on our website ([katbus.com](http://katbus.com)), on our Facebook page, or by following KAT on Twitter([@kat\\_bus](https://twitter.com/kat_bus)).

## Severe Conditions Snow Routes

If the weather gets really bad, KAT starts running on "Severe Conditions Snow Routes." When this happens, service will be provided ONLY on the major corridors of Knoxville:

Kingston Pike (to Walker Springs), Chapman Highway (to Walmart), Magnolia Avenue (to Burns), Broadway (to Essary), and Western Avenue (to I-640 Plaza). **See the last page of this pdf for more specific routing information for Severe Conditions Snow Routes.**

During Severe Conditions, all passengers ride free, but please note: If KAT is able to upgrade back to Regular Snow Routes before your return trip, you will be required to pay regular fare for that portion of the trip.
